Team Effect Co. is a full service live events company providing innovative and eye-catching exhibitions, memorable experiential events and creative exhibition stands across Pakistan.

Our teams have worked within the exhibition industry and many have marketing agency and 'client side' backgrounds. Therefore, they recognizes the significant investment that goes into an exhibition, and understands the need to maximize your return on investment. However, our background means that we also understand how stressful an exhibition, and the time surrounding it, can be. That is why we take your brief, then design and build unique and creative environments. This results in increased footfall and provide the perfect platform to meet your customers, thereby increasing brand awareness and ultimately, increasing sales.
