Store & Space is leading manufacturer of adjustable storage equipments since 1995 in Pakistan. These equipments are mostly in the form of storage racks which are made of MS Sheet and powder coated of different color according to sizes and weights of different products as per requirement. We have a well equipped manufacturing unit that widens over a large area for manufacturing various products of varying sizes. We are striving towards providing our clients with a complete range of quality products under the category of Multiple Storage Systems

These products are suitable for Shoes, Medicines, Textile, and Leather, surgical, Agriculture, Chemical, Hosieries, Laboratories, universities, fabrics, tiles and export import warehouse and many more industries.

Our product has two types **Storage Racks** and **Display Racks**.

## Storage Racks:

These types of racks are used for storage of products of different sizes in large or small warehouses for stacking and increasing the space.

## Display Racks:

These types of racks are using for display the products for selling purpose. Most of people when starting new superstore or start new business they invite us for survey for size of store and display the volume of product per shelf.

Our Business offers storage solutions for industrial and supermarket Equipments in following
