Sports Goods Manufacturer & Exporters

OUR SERVICES:

Sublimation Printing:

it's a method of printing that transfers a design into a material or fabric using ink and heat. In the world of apparel, it's a game-changer in that it allows whole garment prints — designs that go seam-to-seam.

Screen Printing:

Screen printing is the process of transferring a stenciled design onto a flat surface using a mesh screen, ink, and a squeegee. Fabric and paper are the most commonly screen-printed surfaces, but with specialized inks, it's also possible to print onto wood, metal, plastic, and even glass.

Embroidery:

Embroidery is the craft of decorating fabric or other materials using a needle to apply thread or yarn. Embroidery may also incorporate other materials such as pearls, beads, quills, and sequins.
