## STYROBOARD® MANUFACTURER FIRST EVER IN PAKISTAN

STYROBOARD® is a premium quality product introduced by Style Styrofoam Industry (Pvt) Limited. After continuous experiments to achieve an extraordinary high R-value, compressive strength, water resistance and surface finish. STYROBOARD® – Thermopore Sheets are produced using the latest molding technique which makes it possible to enhance the physical properties of EPS insulation. The highly closed-cell structure of STYROBOARD® provides a smoother board surface, excellent resistance to moisture and exceptional compressive strength making it a superior and versatile insulation product designed specifically for Pakistan's environment. Best XPS board insulation. In addition, the fine ship-lap edge profile of STYROBOARD® makes application easier and virtually eliminates heat & moisture transfer through joints. STYROBOARD® is produced in accordance with ASTM international standards and a density range of 32-35kg/m<sup>3</sup> which provides optimal insulation results. The standard sheet size is 4' x 3' and is available thicknesses ranging from 1.5" or 2" and 3".

### Features of STYROBOARD®

- First ever molded EPS board in Pakistan
  - Highest R-value amongst EPS insulation
  - Very High compressive strength
  - Lowest water absorption
  - Extremely lightweight yet very strong
  - Proven long-term retention of insulation properties
  - Smooth & attractive surface finish
  - Ease of handling and application
  -
-

---

Provides sound insulation properties as well
