In the construction industry. Duracon helps architects & engineers, property developers, general contractors and building envelop consultants solve the most difficult waterproofing challenges by providing innovative, time-tested solutions, backed by service and support that are second to none.

Industry Yet it is our unwavering commitment to your success that sets us apart: We call it service & support. In person, on the phone or online, we're with you every step of the way.

Duracon has been engaged in providing waterproofing and heat proofing services in Pakistan. We provide a complete range of duracon chemical treatment and its application for residential, commercials, and industrial clients. Our board experience in technical know-how had made us possible to handle every project with great focus and diligence. Our team of professional technicians, inspectors and project managers can take care of any complex situation with great devotion and zeal so that our clients may rest assured that their waterproofing contractors are fully capable to provide the services as they wanted or even more.

Duracon develops, manufactures and markets a wide range of products that waterproof, repair and protect structures from the raw materials sourced from the quality manufacturers around the world.

Founded in 2010 Duracon is aiming to become a key player in its field of construction chemicals and waterproofing products with offices, agents, distributors and manufacturing facilities around the country.

In the construction industry Duracon recognized a need for products that perform on a consistent and reliable basis and rightly believed that it could be successful by dedicating itself to developing these products and supporting them in the field.

The result is a unique business leading waterproofing technology that continues to revolutionize the industry. Duracon dedicated team has an extensive experience in this field for more than a decade to give best products and solutions to the industry.

Yet it is our unwavering commitment to your success that sets us apart: We call it service & support. In person, on the phone or online, we're with you every step of the way.

Duracon helps architects & engineers, property developers, general contractors and building envelop consultants solve

the most difficult waterproofing challenges by providing innovative, time-tested solutions, backed by service and support that are second to none.

As a quality manufacturer Duracon introduced wide range of products of its own kind where we lead the way to introduce Siloxane based impregnation for the preservation of stone, concrete, terracotta and marble against dirt & weathering; moreover our water proof coatings and admixtures are up to the mark, Duracon also offers insulation and bonding aids etc...

Choosing Duracon products to waterproof your next project will ensure long-term security and peace of mind while saving money, and saving weeks off the construction schedule.
