

Fiberglass Fabrication Stee; fabrication

Address	Dera Muhammad Din Village Handoo ring road Momin Pura road
Contact Person	Abdul Hameed
Mobile Number	03008433290
Email	grpfrp@yahoo.com

We are an Engineering company established since 1998. Our services and products can be broadly categorized into “Fiberglass Fabrication” and “Steel Fabrication”. We are based in Lahore, but we have capacity to complete very big projects all over Pakistan. We have large working area available, sufficient labor resources, and readily available contractual labor option, which enables us to complete big assignments in short span of time.

ITI Engineering is headed by Mr. Abdul Hameed, a qualified Mechanical Engineer with vast and diverse mechanical engineering experience. He worked for 12 years in large Engineering Companies like “Heavy Mechanical Complex, Texila (HMC)”, EKL, and DUBAL (Dubai Aluminum Company. He has sharpened his skills by working for more than 4 years in one of the largest Engineering companies of Pakistan, “Descon Engineering”. The he moved to “Fiberglass” manufacturing and sales experience by working for almost 7 years in “GRP Engineering” & “BET”, both pioneers of fiberglass industry in Pakistan.

With excellent infrastructure, good engineering facilities, and experienced professionals, ITI Engineering can provide World Class service for all kinds of Fiberglass and Steel projects.

ITI Vision: “To provide World Class Engineering Services”

ITI Mission: “To deliver best quality in time by working according to our business values”

Business Values:

In Time Delivery
