## Welcome to HI-TEK Manufacturing (Pvt.) Ltd

From its humble start in 1999, HITEK Manufacturing has played its role in engineering goods manufacturing from simple holding tanks to ASME coded pressure vessels and complete solution provider in project management of a multi-dimensional project. The company is ISO 9001, 14001, 18001 and ASME certified and is well placed to manufacture and repair coded vessels.

HITEK is an industry leader in the production of LPG cylinders and LPG Browsers and manufactures Cylinders in all sizes for most of the LPG marketing Companies. The four acres of manufacturing works is completely equipped to Fabricate, test and paint cylinders to customer specs.

We are also one of the few engineering companies providing LPG to SNG Solution to all customers needing SNG when natural gas is not available. HITEK has installed such systems, which are working successfully in many Industries throughout Pakistan.
