<b>Address</b>	Gharo Thatta
<b>Contact Person</b>	Pak Gharo
<b>Mobile Number</b>	923374632800
<b>Email</b>	pak.gharo@gmail.com

We would like to introduce ourselves to you, Pak Gharo Agri & Live Stock farms is located in Gharo – Thatta. We are inland fish farmers our fish farm is spread over 25 acres of land, with different size ponds. We are currently doing intensive and integrated fish farming trying to make use of latest technology and methods which we as common people can afford in our means. We believe in giving natural feed to our fish, chicken, ducks and ensure animals are raised to our strict standards which prohibit the use of antibiotics, hormones and preservatives.

The successful farming of tilapia, an exotic fish native to Africa and the Middle East, presents Pakistan with an opportunity to explore its potential for aquaculture on scientific grounds. Since the farming of Tilapia has started, it has helped to meet the growing demand for protein for our population and boosts Pakistan's fish exports.
