AT PEARL SOLUTIONS, QUALITY AND CLIENT SATISFACTION IS OUR TOP CONCERN. WE PROVIDE TRUSTED SOFTWARE PRODUCTS & SERVICES BUILT WITH INNOVATION & LATEST TECHNOLOGY, BY CERTIFIED, QUALIFIED AND EXPERIENCED PROFESSIONALS.

Since its foundation in 2006, Pearl Solutions (Pvt) Ltd. is providing enterprise-level software solutions and services to diversified business verticals across all primary industries. These products are developed and implemented after a diligent analysis of requirements. We possess proven experience in system design, development, implementation, and maintenance of projects of any size. We offer Turnkey as well as Tailor Made Software Solutions developed in a modular structure. It helps in reducing the upfront cost of software as well as implementation since only needed modules are deployed.

Pearl Solutions (Pvt) Ltd. is a one-stop solution provider. We offer complete digital transformation not as a vendor but as a partner, so that we may grow and prosper together. Our products & services encompass all of the digitization requirements of any organization. They vary from complex Enterprise Resource Planning (ERP) systems including Accounting, Inventories, HRMS, Productions, Supply Chain, Delivery Management, CMMS, Business Intelligence (BI) to Websites & Mobile App Design & Development. We have a successful history of more than a decade with hundreds of implementations. How far you get successful depends on the right selection of modern technology and implementation partner. We help new startups and established businesses in their successful journey by building strong controls over business processes. We make this possible with our diverse experience, research, and smart use of innovative technologies ranging from desktop systems, web, mobile applications, social media, and digital marketing. We have successfully developed and implemented ERP systems for multiple industry sectors
