We are actively looking for leading national and international firms to join us as partners in all aspects of civil engineering activities particularly in Infrastructure related projects including transportation, environmental engineering & project management. The objective of partnering is business expansion, moving into new markets to explore new opportunities in South Asia, Middle East and beyond.

Established in 2012, with head office in Islamabad and branch offices in Khyber Pakhtunkhwa (KP) and Punjab SES is geared up in providing complete engineering solutions and complete end to end project management solutions. The company has more than 20 disciplines, including but not limited to highway, Railways and structural engineering, construction management, contract administration, quantity estimation, topographic surveys, geology and hydrology studies, environmental impact assessments, project scheduling, and providing support in other ancillary services.

SES has worked on numerous Infrastructure development projects with some International well-reputed organization including Pakistan Railways, World Bank, Asian Development Bank (ADB), Japan International Cooperation Agency (JICA), United Nation Development Program (UNDP) and local government authorities like Communication and Works department (C&W) and Khyber Pakhtunkhwa Highway Authority (KPHA), KP.

We firmly believe in the benefits of collaborative partnering and understand what it takes to partner with other organizations. Much of our past success is achieved through a strategic alliance with peer companies, where we share complementary abilities, technology, and resources, niche expertise and understand risks and opportunities making best use of the combined range of skillsets, mind-sets and management tools.

We are fully committed to developing ourselves further on an international level so that we can retain our position at the forefront as consulting engineering innovators.

It will be an honor to discuss the new opportunities on a case by case basis and if required sign a Memorandum of understanding. Please email or call us for more information.
