Little about us,

Technomax is an enterprise based solution providing company in Pakistan and has acquired an appreciable position as a solution provider and supplier of Networks & telecom cables and accessories, Dry Seal Lead Acid (SLA) Batteries and high quality UPS\renewable energy systems.

We have a variety of Networking connectors, LAN cables, Cable ties, Tie mounts, Co axial cables, Optical fiber cables and patch cords, Networking switches, KVM switches, Wireless Routers, Networking racks/cabinets and dry SLA batteries.

We provide solutions for LAN, WAN , power and security systems. Some of the services offered by us are mentioned below:

- Structured Cabling for optical fiber and copper (Indoor/Outdoor) and Wireless systems.
- Security systems solutions (CMOS/CCD/IP Camera and DVR/NVR Solutions).
- Power Solutions (UPS and renewable energy systems)

We have achieved complete trust of customers by offering them highest quality standards at reasonable price range. We're big enough to provide all the services you need, and small enough to provide the personal attention you desire.
