Air Condition Refrigeration Ac Technician Course Peshawar , Air Condition Refrigeration Ac Technician Course Peshawar , This is a program that is focused on helping you jump start your career in the air conditioning field. You will learn by classroom instruction that is reinforced by the use of a computerized air conditioning simulator. The simulator will help the student understand the refrigeration and electrical systems as well as practice proper troubleshooting techniques. The curriculum prepares students for entry-level employment in automotive air conditioning repair or as preparation for master technician status. Students will gain valuable hands-on experience in servicing, repair and diagnosis of automotive air conditioning systems. Apply automotive heating and air conditioning systems theories of operation to practical diagnostic scenarios encountered during automotive heating and air conditioning service repairs. Demonstrate the proper set up and operation of automotive air conditioning systems refrigerant identification, recovery and recharging equipment.
