Peachtree QuickBooks Tally Course in Rawalpindi Islamabad

The Peachtree accounting system is a computerized accounting system that allows users to post entries to journals, ledgers, and subsidiary ledgers. All at once Peachtree allows you to enter the information one time into the appropriate journal, and then it posts everywhere else for you. You can enter the original entry in cash disbursements, cash received, or in the general journal. Peachtree will also make adjusting and closing entries for you at the end of the period. It's really user friendly. It will generate balance sheets, income statements, statements of retained earnings, and cash flow statements. It will print and keep track of invoices (both sent and the invoice numbers of those received), it will print collections letters. It also keeps track of vendors, customers, and employees.

Shorthand Course in Rawalpindi Islamabad

PAs and secretaries at all levels today have to be able to take minutes of meetings. Minutes can be taken in longhand or using a lap-top, but the ability of a secretary to keep up with what is being said, and take accurate notes quickly, is often best done by using shorthand. Modern devices such as audio-machines simply cannot record what is being said in a meeting, then make meaningful notes out of what is recorded, by summarising what is important and what is not important. The shorthand secretary, however, can summarise “real-time” in the meeting, and interpret what is being said – all at the same time as listening actively. Moreover, taking minutes in shorthand is effortless, whereas using a PC or longhand can be very fatiguing. Shorthand allows accurate notes to be taken effortlessly over a long period of time, and enables the minute-taking secretary to feel more confident that they are getting everything down and not missing anything in their course of taking minutes.

Importance Of Shorthand Course

Your good shorthand and typing speed can easily win a government job for you. Shortcut and typing are most requirement skill in government departments. Every year unlimited jobs are announced by different government

requires skillful persons of shorthand and typing. IPATS offering diploma in shorthand to full fill the job requirements.
