### All Stainless Steel Bourdon Tube Pressure Gauge

The all stainless steel pressure gauges for increased safety according to EN 837-1 are ideal for the hard conditions and the resulting high demands on pressure measurement in production facilities in chemical industry and other comparable areas. Resistance to aggressive media and environments is achieved by using high - graded materials such as stainless steel both for the movement and the housing. All the pressure gauges comply with general international guidelines and take account of standard as well as application-specific requirements.
