Die cut bag (Kidney handle bag, Punch out handle bag with cut off handle) looks like an oval, kidney or circle. It differs from the patch handle bag in the lack of patch around the cut but the tear strength of the handle really holds up. This kind of bag can be used in the clothes stores, cosmetics, shopping,... with really fashionable printing artworks.

- When a customer makes a purchase in your shop, he or she should leave the store with a bag that not only reminds them where they purchased the item, but one that also lets others know about your business. Custom printed die cut handle bags offer customers ease of use, and they are the perfect choice for businesses that sell anything from books to groceries.
- Usage: to carry nice light objects such as gifts, cosmetics, clothes, CD's, medicine, small boxes, etc. This bag is also a very good advertising tool.
- Customers will appreciate the handles and elegant look
- Great merchandise bags for small retail stores
- Be used for a rich presentation
